\$10 minimum

Join us! Mid-MEAC Members are invited to meet with like-minded peers at our events, including our Land Use Lecture Series (first Fridays), Green Drinks (third Thursdays), Annual Awards and our Summer Solstice Celebration.

Your membership in Mid-MEAC connects you with your colleagues in environmental professions and our wider community of citizens committed to stewardship. Mid-MEAC Members make it possible for us to maintain volunteer programs that improve our communities, like stream monitoring, lake water quality training, community recycling, smart commute challenge, and low impact development projects that protect water quality while conserving green spaces and habitat.

Join us to support Mid-MEAC's advocacy for water quality protection, wise land use, and air quality.
