

Agreement for Participants * Mid-Michigan Watershed Connections Program

An education program funded by a grant from
the National Oceanographic & Atmospheric Administration

Program duration: April 2022 - July 2023

Benefits provided to participating teachers and their schools:

- * \$500 stipend to each teacher (divided into two payments)
- * \$200 for equipment and/or materials to be used for teaching environmental education
(item(s) selected by teacher for school with approval of grant leaders)
- * Earn SCECHS from State of Michigan Department of Education
- * Project WET training and complete book of award-winning activities
- * Extensive environmental education training with a rich set of other teaching activities and contact
with a variety of resource professionals (potential speakers for classroom)
- * All-expenses-paid field trip for students to do water testing and learn about watershed issues.
(Included in funding are bus transportation, substitute costs, and entire program. Funding covers
up to 3 classes per teacher. If they teach more than three class, more classes per teacher may
be covered if enough other teachers have fewer than 3 classes.)
- * Assistance if requested from program organizers.

Expectations of teachers:

- * Participate in all of the professional development training. One third to one half of it will be on 4
days in the summer of 2022, with additional meetings during the school year. None will be
during the school day. Up to 70 hours. Dates will be decided with input from teachers.
- * Lead your students in instruction related to some of the training. (You choose what fits your
curriculum.) This includes bringing students on a field trip to do water testing.
- * Engage students in a research or service project related to watersheds.

I have read the above description and agree to participate in the program.
